On reduced equations in the Hamiltonian theory of weakly nonlinear surface waves. VLADIMIR P. KRASITSKII *page* 1

The solidification of buoyancy-driven flow in a flexible-walled channel. Part 1. Constant-volume release. JOHN R. LISTER 21

The solidification of buoyancy-driven flow in a flexible-walled channel. Part 2. Continual release. JOHN R. LISTER 45

Plume formation and resonant bifurcations in porous-media convection. MICHAEL D. GRAHAM and PAUL H. STEEN 67

Steady, viscous, free-surface flow on a rotating cylinder. ERIK B. HANSEN and MARK A. KELMANSON 91

The long-time self-diffusivity in concentrated colloidal dispersions. JOHN F. BRADY 109

Different forms for nonlinear standing waves in deep water. PETER J. BRYANT and MICHAEL STIASSNIE 135

On Chaplygin's investigations of two-dimensional vortex structures in an inviscid fluid. V. V. MELESHKO and G. J. F. VAN HEIJST 157

Turbulence structural changes for a three-dimensional turbulent boundary layer in a 30° bend. WALTER R. SCHWARZ and PETER BRADSHAW 183

A Hamiltonian structure with contact geometry for the semi-geostrophic equations. I. ROULSTONE and J. NORBURY 211

On the instability of wave-catalysed longitudinal vortices in strong shear. W. R. C. PHILLIPS and Z. WU 235

Three-dimensional wave instability near a critical level. K. B. WINTERS and E. A. D'ASARO 255

The inertial migration of non-neutrally buoyant spherical particles in two-dimensional shear flows. ANDREW J. HOGG 285

A turbulent equilibrium boundary layer near separation. PER EGIL SKÅRE and PER-ÅGE KROGSTAD 319

Effects of convex transverse curvature on wall-bounded turbulence. Part 1. The velocity and vorticity. JOÃO C. NEVES, PARVIZ MOIN and ROBERT D. MOSER 349

Effects of convex transverse curvature on wall-bounded turbulence. Part 2. The pressure fluctuations. JOÃO C. NEVES and PARVIZ MOIN 383

REVIEWS

The Acoustic Bubble, by T. G. Leighton 407

Wave Propagation in Gas–Liquid Media, by V. E. Nakoryakov, B. G. Pokusaev and I. R. Shreiber 408

INDEX TO VOLUME 272 410

SCHEDULE OF INTERNATIONAL CONFERENCES ON FLUID MECHANICS 411
